Thank you for your support of SOCOFY. In order to protect your personal information when shopping socofy.com, we will develop this Privacy Policy, which is actually the agreement that governs your use of our Services. We use cookies and similar technologies to provide, protect, and improve our products and services, such as customizing content, offering and measuring ads, understanding user behavior, and providing safer use. You may delete or reject cookies using your browser or device settings, but in some cases this may affect your ability to use our products and services.

2.1 The definition of CookiesCookies is a small part of the text used to store information in web browsers. Cookies are widely used to store and receive identifiers and other information on computers, phones, and other devices. These file types do several different tasks, such as remembering your preferences and selected items to help you improve your site experience, as well as trying to ensure that the ads or offers you see online are more relevant to you. These cookies can be divided into 4 types, each of which is listed below.

2.2 Types of CookiesStrictly necessary cookies in order to provide you with the basic services of our website, such as visiting our website or making a purchase, these cookies are necessary. If you disable these cookies, we will not be able to meet your request. Performance cookies This type collects anonymous information about how people use the site and the data is merged with other users to enable us to improve how the site works. For example, we use Google Analytics cookies to understand how customers come to our sites, browse or use our sites, and highlight areas where we can improve areas such as navigation, shopping, and marketing campaigns. The data stored by these cookies never shows personal data from which your individual identity can be determined. If you disable or opt out of these cookies, you may not be able to use certain features of our websites and services, and this may reduce the support or information we may provide to you. Functionality of Cookies These cookies may remember operations such as your preferences to provide you with better services and improve our operating models. If you refuse these cookies, you may not be able to use certain features of our website. Targeting cookies or advertising cookies Then these cookies collect information about your browsing habits to make your ad more personalized. These cookies may remember websites you have visited and share them with third parties such as advertisers. If you refuse these cookies, you may not be able to use certain features of our website and may affect your experience. Social network cookies These cookies are used to share pages and content on our websites and services through third-party social networks and other websites. These cookies may be for advertising purposes. If you refuse these cookies, you may not be able to use certain features of our website and this may affect your experience.

2.3 Cookies placed by third partiesOn our third-party websites, you may also encounter cookies. For example, when purchasing our products online, our e-commerce retailer may use cookies and other technologies. We may also allow third parties to store cookies on our websites to track information about your online activities and/or on third-party websites or online services, including the sending of targeted ads based on this information, which may include remarketing of our products and services that you view on our websites and on third-party websites. This cookie statement does not apply to cookies, applications, technologies or websites owned and/or operated by third parties, or to the practices of such third parties, even if they use or access our technology to store or collect information. To understand how third parties use cookies, please read their privacy policy.

2.4 Checking and opting out of cookiesYome you can change your browser settings to prevent cookies from being stored on your computer or mobile device without your express consent. Your browser's Help section usually provides details on how to manage your cookie settings. If you choose to reject cookies as described above, you may not be able to use certain features of our websites and services.

2.5 Other similar TechnologiesDPAPI (Data Protection Application Programming Interface) is a simple cryptographic programming interface of the application available as a built-in component in Windows 2000 and later versions of Microsoft Windows operating systems. Theoretically, the Data Protection API may allow symmetric encryption of any kind of data; in practice, its primary use in Windows is to perform symmetric encryption of asymmetric private keys using a secret user or system as a significant contribution of entropy. DPAPI can help record and store users' personal data. Data Cube is a simple application to record and analyze personal data. If you choose to refuse cookies as described above, you may not be able to use certain features of our websites and services.
